Avg Monthly Income

Attrition by Department

Sales and Human Resources departments face **critical-level attrition**, significantly outpacing Research & Development. These two departments represent the highest-priority intervention targets for immediate retention action.

Department

Risk Assessment

● Sales — 20.0%

Critical risk. Highest departmental attrition.

● HR — 19.0%

Critical risk. People team losing its own talent.

● R&D — 13.8%

Moderate risk. Below company average.

Attrition by Job Role

Entry-level roles carry dramatically higher attrition than leadership positions. **Sales Representatives** at **39.8%** represent an entry-level crisis, while Research Directors and Managers show minimal turnover.

● Critical

Sales Rep: 39.8%

● High

Lab Tech: 23.9% | HR: 23.1%

● Moderate

Sales Exec: 17.5% | Scientist: 16.1%

● Low

Manager: 4.9% | Director: 2.5%

Key Finding: Overtime & Work-Life Balance

Overwork is a primary driver of attrition. Employees with poor work-life balance leave at **2.7x the rate** of those with excellent balance — one of the strongest single predictors in the dataset.

53.6%

Of all departures involve employees working overtime

31.3%

Attrition rate for employees with poor work-life balance

11.4%

Attrition rate for employees with excellent work-life balance

- ❏ A 2.7x improvement in attrition is achievable by addressing work-life balance — one of the highest-ROI interventions available.

Key Findings: Demographics & Career Progression

Demographics

Single employees show significantly higher attrition than married employees, with a clear gender dimension. Single males face the highest risk at 26.9%.

Single (Male)

26.9% attrition

Married

11.4% attrition

Career Progression Impact

There is a **clear inverse relationship** between career level and attrition. Leadership roles show minimal turnover, while entry-level positions face a crisis.

Leadership Roles: 2.5%–6.9%

Managers and Directors are highly retained — the retention model to replicate.

Entry-Level: Up to 39.8%

Sales Representatives represent an entry-level retention crisis requiring immediate action.

Strategic Recommendations (Tips 1–3)

1

Work-Life Balance Initiative

Implement flexible work policies, remote options, and overtime management. **Expected impact:** 15–20% attrition reduction. **Timeline:** 30–60 days.

2

Sales Department Retention Program

Develop competitive compensation, career paths, and mentorship programs for Sales. **Target:** Reduce attrition from 20% to 12% within 12 months.

3

Entry-Level Sales Support

Create comprehensive onboarding, mentorship pairing, and realistic first-6-month targets for Sales Reps. **Target:** Reduce attrition from 39.8% to 20%.

Strategic Recommendations (Tips 4–6)

Overtime Management

Since **53.6%** of attrition involves overtime workers, implement capacity planning and additional hiring. **Expected impact:** 12–18% overall attrition reduction.

Career Development Frameworks

Create formal promotion ladders and development plans. Leadership roles show only 2.5%–6.9% attrition — this is the model. **Expected impact:** 10–15% reduction.

Demographic-Specific Retention

Single employees show 26.9% attrition vs. 11.4% for married. Focus career development and flexible benefits. **Expected impact:** 8–12% reduction in single employee attrition.

Implementation Roadmap

A phased approach ensures quick wins build momentum while longer-term initiatives create lasting retention culture.

Expected Business Impact & Conclusion

12-Month Projection

If all recommendations are implemented:

- Overall attrition: **16.12% → 10–12%**
- Sales department: **20% → 12–15%**
- Sales Representatives: **39.8% → 20%**
- Estimated cost savings: **15–20%** of annual HR budget
- Improved employee satisfaction and retention
- Enhanced recruitment brand and employer perception

Key Takeaways

Employee attrition is concentrated in specific areas with clear intervention opportunities. Treating attrition as a strategic business priority can deliver measurable ROI within 12 months.

→ Work-Life Balance

Strongest single lever — 2.7x improvement potential

→ Career Development

Leadership retention model (2.5%–6.9%) as blueprint

→ Overtime Management

53.6% of departures involve overtime workers

→ Entry-Level Support

Sales Rep crisis (39.8%) requires immediate action
